

STAINLESS STEEL HEXAGONAL WIRE NETTING

Home>Products>Stainless Steel Hexagonal Wire Netting

STAINLESS STEEL HEXAGONAL WIRE NETTING

Materials of stainless steel hexagonal wire netting: stainless steel wire

Features:

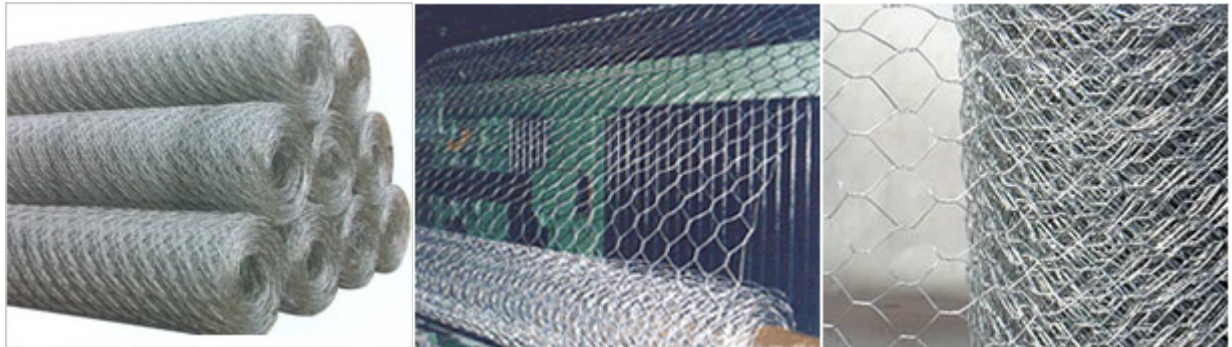

This kind of hexagonal wire mesh offers many excellent properties, such as corrosion resistance, alkali and acid resistance and anti-oxidizing property.

Weaving pattern: normal twist, reverse twist.

Applications:

Hexagonal wire netting serves mainly as reinforcement, protection and heat preservation material in construction, petroleum, chemical industry, breeding, garden fencing and foodstuff industry.

General Purpose

Type	Mesh (mm)	Wire size (mm) / swg	Roll height (mm)	Roll length (m)
Netting	13	0.70 / 22	600 / 900 / 1200	50
		0.70 / 22	600 / 900	25
	19	0.90 / 20	900 / 1200	50
	25	0.80 /	900	50
		0.90 / 20	300 / 600 / 900 / 1200 / 1800	50
		0.90 / 20	600 / 900 / 1200 / 1800	25
	31	0.90 / 20	1050	50
		1.00 / 19	600 / 1050 / 1200	50
		1.20 / 18	1050 / 1200	50
	38	1.00 / 19	1800	50
	50	0.90 / 20	900 / 1200	50
		1.00 / 19	600 / 900 / 1200 / 1800	50
		1.00 / 19	900 / 1200 / 1800	25

	100	1.60 / 16	900	50
		2.00 / 14	900	50

Rabbit

31mm mesh size, consistent heavy galvanising, roll width and height guaranteed.

Type	Mesh (mm)	Wire size (mm) / swg	Roll height (mm)	Roll length (m)
Rabbit	31	1.00 / 19	1050 / 1200	50
	31	1.20 / 18	1050 / 1200	50

Poultry

Ideal poultry run and enclosure netting.

Type	Mesh (mm)	Wire size (mm) / swg	Roll height (mm)	Roll length (m)
Poultry	50	1.00 / 19	1800	25 / 50
	25	0.90 / 20	1800	25 / 50

Chicken

For chicken runs and enclosures. Consistent small mesh size prevents escape and excludes predators.

Type	Mesh (mm)	Wire size (mm) / swg	Roll height (mm)	Roll length (m)
Chicken	25	0.90 / 20	900	25 / 50
