

## STAINLESS STEEL WELDED WIRE MESH

**Stainless steel welded wire mesh** is strong and long lasting. Because of its very nature, stainless steel wire needs no additional finish treatments, such as galvanizing or PVC to protect it. The wire itself is extremely resistant to rust, corrosion and harsh chemicals. If you need welded mesh or fence in an area with prolonged exposure to corrosives, stainless steel products will meet your demands.

Stainless steel welded wire mesh offers greater corrosion resistance, alkali and acid resistance and much better physical properties compared with galvanized welded wire mesh products.

### Features of welded wire mesh when used in construction:

Savings in material and workmanship for up to 50% and 25% in slabs.

Savings in time placement of up to 70%

Anchoring effective in particular by its strong unions

Reducing waste

Easily cut

Firm structure that gives resistance to breaking and deformation

Uses of Stainless Steel Welded Wire Mesh

Slabs of foundation

Pavements

Strengthening

Fencing

Cages for small animals, exhibition shelves, fences and other items for industries and daily uses

Technical Note:

1. Standard roll length: 30m; width: 0.5m to 1.8m

2. Special sizes available at request

3. Packing: in waterproof paper in rolls. Custom packing available at request.

Specifications of Stainless Steel Welded Wire Mesh

Stainless Steel Welded Wire Mesh:		
Opening		Wire Diameter<BWG>
In inch	In metric unit(mm)	
1/4" x 1/4"	6.4mm x 6.4mm	22,23,24
3/8" x 3/8"	10.6mm x 10.6mm	19,20,21,22
1/2" x 1/2"	12.7mm x 12.7mm	16,17,18,19,20,21,22,23

5/8" x 5/8"	16mm x 16mm	18,19,20,21,
3/4" x 3/4"	19.1mm x 19.1mm	16,17,18,19,20,21
1" x 1/2"	25.4mm x 12.7mm	16,17,18,19,20,21
1-1/2" x 1-1/2"	38mm x 38mm	14,15,16,17,18,19
1" x 2"	25.4mm x 50.8mm	14,15,16
2" x 2"	50.8mm x 50.8mm	12,13,14,15,16
