Welded Wire Mesh for Industrial

Welded Wire Mesh for Construction

This company offers countless combinations of welded wire mesh products and serves hundreds of industries. Our goal is to provide our customers with the most cost efficient product for their application. This does not always mean offering the lowest cost material but offering the lowest cost solution to meet our customers' needs.

Welded Wire Mesh for Fence

For all kind of applications, the fencing materials are designed to withstand the rigors of weather and corrosion protection. Welded wire mesh fence mostly finished by hot-dipped galvanizing, or powder coating, or combined two methods. A wide range of colors is available to harmonize with any environment.

Welded Wire Mesh for Poultry

Whether you need to protect caged animals or birds from predators or secure these animals to protect others, the strength and durability of the wire is the first considering.

Cage manufacturers prefer the smooth surface welded wire mesh which eliminates snagging or cutting from sharp surfaces and makes the wire easy to clean.
